

## **INFO-TECH n. 07/22 – 28/09/2022**

**Sbj: Oil Seal TCWJ 20x35x7 - P.N. F-10425A**

Following supply issues with IAME's preferred supplier for the oil seal TCWJ 20x35x7 p.n. F-10425A, we have been forced to supply from a second supplier to continue with the production of the engines and the supply of spare parts.

The two components are perfectly interchangeable, quality, durability and performance are the equivalent.

The only difference is in the IAME marking present on the product from the original supplier and not present on the product from the second supplier (see pictures below).

Both parts are allowed and can be used indiscriminately.

We kindly ask you to disclose the present communication to governing bodies/race promoters/organizers for immediate application.

Engine families: M1/Gazelle/NorSwift/Mini Swift Pro-M/X30 WS/Sudam/KFS/EasyKart.
